

Together

we are limitless

WE ARE HIRING

Join our company recruitment!

Location: HIT관 613호

Monday, Mar 27, 2023

14:00 PT – 16:00 PT

We are engineers, scientists, and business strategists. We are from many different countries and speak many different languages. We come from diverse cultures and have unique perspectives. Together, we focus on a single goal—we invent breakthrough technologies that transform how the world connects, computes, and communicates.

Volunteers

- Camera ISP algorithm designers
 - ISP algorithm for mobile imaging pipeline
 - Deep learning-based image processing
 - Computer vision for image enhancement
- Video software & hardware engineers
 - Video Codec algorithm research
 - H/W C-modeling, performance modeling
 - Firmware implementation
 - Micro-architecture, RTL design, RTL synthesis
